PORTFOLIO ANALYSIS REPORT

Maintenance Fee Reduction
Competitive Intelligence
Licensing Identification
Portfolio Mapping

IP SERVICES

You deliver patent numbers, we analyse and deliver your individual custom report. Fast, objective, transparent, cost effective.

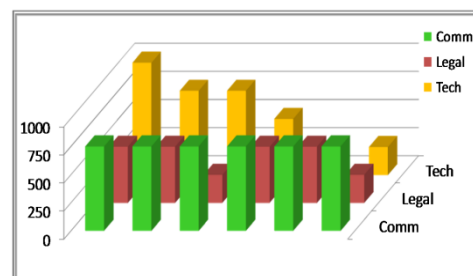

A leader in Patent Asset Management and Analytics Solutions including Custom Portfolio Analysis Reporting takes your patent assets and provides an advanced digitalized approach to identify the quality of all portfolio patents.

PORTFOLIO ANALYSIS REPORTING SERVICE

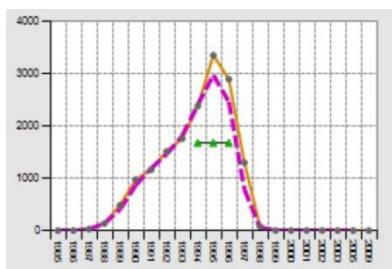

Portfolio Analysis Reporting Service provides the identification of patent quality based upon issuance year, classification code, cost analysis, with data results in electronic output for the custom portfolios provided. A transparent detailed definition of each measurement used delivered at a fraction of the time required by large IP Departments through the use of Pantros Management tools.

ANALYSIS

Patent Factor Index Analytics – International and US computes and creates 20 separate data fields specific to Commercial Value, Legal Strength, and Technology Quality uncovering true patent quality - a clear and transparent insight to justify business critical decisions, revenue generation and budget reduction.

DATA

Portfolio Analysis Reporting provides immediate return on investment through the identification of the lowest quality patent assets requiring maintenance fee payments. With the annual identification of ten US Granted Patents for abandonment or sale total fees can exceed over \$150,000 USD annually in budget savings.

IDENTIFICATION

Portfolio Asset Management requires the complete understanding of all patent assets in order to prevent loss, understand risk, generate new revenue, and improve organizational value. Litigation strategy validation completed immediately through an on-demand patent factor index report.

Patent quality analysis has been a long term, never ending project to uncover Licensing Identification, Budget Reduction, Due Diligence, and Competitor Intelligence but with the Pantros IP Management tools time savings and corporate objectives become instantly realized.
